Why Use a Schoolwide Approach?

Research is pointing to chronic absenteeism as one of the most critical and yet underaddressed issues in schools:

- ____________ million students each year
  (___________ %)
- In some schools up to 50% of the student body is chronically absent.
- Many schools do not know how many or which students are chronically absent.

Definitions

- Average Daily Attendance (ADA): total number of days of student attendance divided by the number of days of school taught during the same period.
- Truancy: missing school without ________________
- Chronic absenteeism: missing ________________ of school for _______ reason—excused, unexcused or suspension.
  - 3 days or more in the first 30 days of school
  - 18 days or more in a 180-day year

Why Use a Schoolwide Approach?

Goal: no student is chronically absent.
- No student is absent 10% or more of days

Goal: every student will ____________________________ school.
- Every student has ____________________________ days absent each academic year.
- 5% or less = ________________ or less in one year
- No more than the equivalent of ____________ per month

Addressing Absenteeism Through Schoolwide Systems

- Absenteeism becomes part of any school’s multi-tiered approach to behavioral and academic supports:
  - ________________ prevention
  - ________________ identification
  - Tier 2 and Tier 3 interventions
- Attendance is a measure of other climate and safety (Foundations) efforts
Module C: Presentation 4: Improving Attendance

<table>
<thead>
<tr>
<th>Task</th>
</tr>
</thead>
<tbody>
<tr>
<td>Task 1: Develop a Common Language and Understanding About Attendance</td>
</tr>
<tr>
<td>Task 2: Design and Refine Attendance Policies</td>
</tr>
<tr>
<td>Task 3: Analyze Schoolwide Attendance Data and Identify Priorities for Improvement</td>
</tr>
<tr>
<td>Task 4: Use Practical Strategies to Promote Regular Attendance</td>
</tr>
</tbody>
</table>

Task 1: Develop a Common Language and Understanding About Attendance

- Definitions and goals
- Negative outcomes associated with chronic absenteeism
- Common causes of absenteeism

Brainstorm negative effects of absenteeism:

<table>
<thead>
<tr>
<th>On the student:</th>
<th>On the class:</th>
<th>On the parents/community:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Negative Effects of Absenteeism in Elementary

A recent study in California found:

- Of students who attended school regularly in K–1, __________% were proficient readers at the end of 3rd grade.
- Of students who were chronically absent in K–1, __________% were proficient readers at the end of 3rd grade.

K–1 attendance is a major predictor of reading at grade level by 3rd grade.

Negative Effects of Absenteeism in Secondary

Frequent absences is one of the best predictors of ___________________________ and ____________________________.

- Utah Study: Students who were chronically absent any year from 8th–12th grade were __________ times more likely to drop out than students who attended regularly.

Other Negative Effects of Absenteeism

- May not develop important life skills
  - Social and friendship
  - Resilience
  - ___________________________

- Face dangers outside of school
- Increased involvement in criminal justice system
- Societal costs of dropout, delinquency, and incarceration
- Classroom churn
- Cannot tell if other initiatives—academic and behavioral are ___________________________

What Can We Do About Absenteeism?

Move away from traditional approaches that focus on punitive methods:

- Parents contacts
- Warnings/lectures
- Truancy court
- Suspension for tardies and absences

Use positive and proactive approaches.
Look at Causes of Absenteeism

- What is preventing students from attending?
- What is the student or parent “getting” from the student being absent?

Prevention and intervention must address the causes of absenteeism:

  - Barriers
  - Escape/Avoidance
  - Lack of awareness or understanding about the importance of school
  - To acquire something

As you complete the tasks in C4: Improving Attendance, give consideration to the common causes of absenteeism in your school.

Task 2: Define and Refine Attendance Policies

Attendance policies should:

- Emphasize the importance of attendance.
- Clarify definitions and how you will monitor attendance.
- Address common problems/causes of attendance issues.
- Be taught and reviewed regularly with staff, students, and families.

Use the document “School-Based Analysis of Attendance Policies” to analyze your current policy and complete revisions as necessary.
School-Based Analysis of Attendance Policies (p. 1 of 2)

This form is designed to help you consider your current attendance policies and whether they specifically and clearly address most of the attendance issues you see in your school. Information in the Module C, Presentation 4, Task 2 video and book complements this form.

<table>

<th>N</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Does your policy refer to state laws about compulsory education and attendance?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Does the policy clearly define what counts as an excused absence and an unexcused absence?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. Does the policy indicate legitimate reasons for absence?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Does each legitimate reason for absence include additional information for clarification?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Does the policy indicate reasons for absences that will not be considered excused, even with a parent/guardian call or note?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Does the policy clearly define the amount of time that will qualify as an absence and indicate how this will be monitored?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. Do partial-day absences count as part of the student’s absence count?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. If no, will partial-day absences accumulate toward full-day absences?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. When does a tardy become an unexcused absence?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Will the school monitor both numbers of tardies for each student as well as number of minutes missed for cumulative tardies?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Will the school monitor school-event absences and address potential detrimental effects of these absences?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
## Questions to ask yourself

<table>
<thead>
<tr>
<th></th>
<th>Y</th>
<th>N</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>5. Do current policies link absences with course credit or grades? (That is, students who meet an established maximum percentage of days absent are denied course credit or their grades are automatically reduced.) <strong>Caution:</strong> If using this procedure, ensure the following are in place:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. How will you educate and remind students and families about the policy?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. How will you warn students and families when the student is at risk of losing credit or getting a reduced grade because of high absence rates?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Does your policy include the following statements?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>a. The school will assist with barriers and difficulties that might be preventing regular attendance.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The school will take measures to help the family address absenteeism before court proceedings are initiated. (Indicate specific measures; Task 4 suggests some strategies.)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. The school will override excused absences when they are found to be illegitimate.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. The school will initiate truancy court proceedings if students and families are not making serious efforts to get the student to school or work with the school to overcome barriers.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. How will the Foundations Team use the attendance policy to educate staff, students, and parents about the importance of attendance?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Note:** Use a separate sheet to document other policies and further actions.
Example

Question 2: Does the policy clearly define what counts as an excused absence and an unexcused absence?

Legitimate reasons:

- Illness
- Death or funeral of a family member
- Medical or dental appointment
- Religious holiday of the student’s religion
- Attend a required court-appearance
- School sponsored curricular or extra-curricular activity
- Other emergency

Provide Additional Clarity

Question 2b: Does each legitimate reason for absence include additional information for clarification?

For example: “Illness”

- All students receive “How Sick Is Too Sick for School?”
- Tier 2: conference to discuss frequent illness with family, follow up with phone calls when the student is excused

For example: Medical or dental appointment

- When possible schedule appointments outside of _________________________________
- The student must attend prior to the appointment or return on the same day (absent only for the time going to, during, and returning from the appointment).

Note: For schools in which this is problematic, require a signed appointment note.

- Attempt to vary time appointments are scheduled to not overly impact a subject.

Notes:

How Sick Is Too Sick for School?

In general, children are too sick to come to school when:

- They are contagious
- Their symptoms are serious enough to prevent them from focusing on the tasks they need to do there

Use this checklist to determine whether to keep your child home from school.

1. Does your child have a fever of 100˚ or higher? YES NO
2. Has your child vomited two or more times in a 24-hour period? YES NO
3. Does your child have diarrhea? YES NO
4. Are your child’s eyes red, bright red, and/or discharging yellow or green fluid (conjunctivitis/pink eye)? YES NO
5. If your child complains of a sore throat, is it accompanied by fever, headache, stomachache, or swollen glands? YES NO
6. If your child complains of a stomachache, is it accompanied by fever, vomiting, diarrhea, lethargy, sharp pain, and/or hard belly? YES NO
7. Does your child have a persistent, phlegm cough? YES NO
8. Does your child have lice (white, translucent eggs the size of a pinpoint on the hair or insects on the scalp)? YES NO

If you answered yes to any of these questions, please keep your child home from school and consider seeking medical attention. Your child could have a serious or contagious illness. Keep your child home until he or she has been symptom free for at least 24 hours or until the doctor indicates that he or she can return to school.

If children have a cold, headache, or stomachache that is not accompanied by fever, vomiting, or diarrhea, they can probably come to school.

If children have a rash, it could be contagious. Please seek medical advice before allowing your child to come to school.

Earsaches are not contagious. Children can come to school as long as they can concentrate on their work.

Once your child has been treated for lice, he or she can return to school.

© Safe & Civil Schools
Provide Additional Clarity

Excused absence does NOT include:

- Vacations
- Minor illness (cold, stomachache, or headache without fever, vomiting, or diarrhea)
- Haircuts
- Birthdays
- Taking a driver’s test
- Going shopping
- Car trouble
- Oversleeping (student or parent)

Address other common absence reasons that are problematic in your school.

**Task 3: Analyze Schoolwide Attendance Data and Identify Priorities for Improvement**

Set up processes for:

- Calculating schoolwide absenteeism rates on a regular basis:
  
  Percentage of students in each of the following categories:
  
  - Regular—missing less than 5% of days
  - At risk—missing 5—10% of days
  - Chronic Absence—missing 10% or more of days
  - Severe Chronic Absence—missing 20% or more of days

- Analyzing trends for why students are absent
- Developing red-flag systems for individual student support

### Calculate the Schoolwide Rate of Chronic Absenteeism

<table>
<thead>
<tr>
<th>Calculate the Schoolwide Rate of Chronic Absenteeism</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Print a list of all students who have been absent 10% or more of days in the current school year.</td>
<td></td>
</tr>
<tr>
<td>2. Count the number students on this list.</td>
<td></td>
</tr>
<tr>
<td>3. Divide the number of students chronically absent by the number of enrolled students.</td>
<td></td>
</tr>
<tr>
<td>I work in a school with 1,500 students.</td>
<td></td>
</tr>
<tr>
<td>1. It’s Day 80 in the school year. I print a list of all students who missed ____ or more days (10% of days).</td>
<td></td>
</tr>
<tr>
<td>2. I count 217 students.</td>
<td></td>
</tr>
<tr>
<td>3. I divide the number of students chronically absent (<strong><strong><strong>) by the number of enrolled students (</strong></strong></strong>).</td>
<td></td>
</tr>
<tr>
<td>________% of the student body is chronically absent.</td>
<td></td>
</tr>
</tbody>
</table>
Task 4: Use Practical Strategies to Promote Regular Attendance

- Increase ___________________________ about the importance of regular attendance:
  - Campaign to get students, family, and staff on board and excited
  - Make an attendance focus part of the ___________________________ of the school—emphasize the importance of attendance frequently in myriad ways

- Enhance family and community involvement

Increase Awareness
Example: Send an Initial Letter Home

Loganville Middle School
Home of the Trojans

Dear families,

We are looking forward to a great year, with students in classes and ready to learn every day.

We have learned that students who miss even a few days of school each month are at far greater risk of academic failure and dropout than students who attend regularly. We have set a goal that every student in our school attends regularly (has nine or fewer absences in a year).

Because attendance is so important, please send your child to school every day unless he or she has a contagious illness or is running a fever.

We have included a chart with this letter that will help you keep track of your student’s absences. If your child is at risk of missing too much school, please feel free to contact Joan Ndogo at 555-1234 for assistance. We will also monitor each student’s attendance across the year so we can work with families when the number of absences puts a student at risk. We will be happy to work with you to help your student attend regularly and have greater opportunities for success.

Sincerely,

[Attendance Chart Image]
Increase Awareness

Example: Classroom Attendance Graph

- Post in a high-traffic location.
- Add a goal line (for the number of students in attendance each day).
- Graph the number of students present each day.
- Add a ___________________________ system as needed.

Enhance Family and Community Involvement

- Increase awareness: PSAs, newletters, etc.
- Create meaningful partnerships with families: Shungnak parent attendance initiative
- Increase community involvement:
  - Medical offices asking for families to schedule outside of school when possible
  - Businesses providing incentives for regular attendance
  - Businesses asking for IDs for those who should be in school

Connect with Families

- Provide ___________________________ and ___________________________ contacts at first.
- Become increasingly ________________ (and include ___________________________ measures) as needed the more the problem persists
- When a family truly will not participate, work directly with ___________________________.
  Example: create a task analysis (checklist) of the student’s bedtime and morning routine. Combine this with a high-value reinforcement system for coming to school.
